Projects

AI-GPT Web App | *React.js, Tailwind.css, Gemini API*

- Developed a web application similar to ChatGPT with a responsive UI.
- Integrated Gemini API for backend AI interactions.
- Implemented smooth user input handling and real-time responses.

Restaurant Booking System | *MERN Stack: React.js, Node.js, Express.js, MongoDB*

- Built a full-stack web app for restaurant seat booking.
- Managed data with MongoDB and designed RESTful APIs.
- Created an intuitive frontend interface with React.js for seamless user experience.

Technical Skills

- **Languages:** Python, C++, HTML/CSS, JavaScript
- **Libraries/Frameworks:** React.js, Node.js, Express.js
- **Developer Tools:** VS Code, Git/GitHub
- **Database:** MongoDB, SQL
- **Expertise:** Data Structures & Algorithms, Object-Oriented Programming

Education

Uttarakhand Technical University, Dehradun, India

B.Tech in Computer Science & Engineering | CGPA: 7 /10 | 2023–2027

Achievements

- Hackathon: Top 10 at college level (2024–25)
- Cash-prize winner in College Coding Hunt.
- Participated in Ideathon 2025
